### DIÉGO PINTO

I'm 22 years-old and I'm from France near Orleans. I've always lived here since my childhood. I practice basket-ball since I was 5 years-old, so I can tell it's my passion.

I'm studying at the University of Orleans in Sport and Science. I'm specialized in athletes reabbilitation after one or many injuries. I am therefore very happy to participate to this project with everyone of us.

## **Blended Mobility Project:**

In this project, my involvement will based on physiological part: compare some tests which existing in the scientific litterature to chose what's the best for us and why?

I will able to advise on what should be the best for the project, obiously for the physio part.

It's important to say, if the profect is a sucess, the application will be used by trainers, coachs and people like us, so I'm very thrilled to begin.

# Professional background:

- Nowadays → Internship of making a routine sheet for young basketball players in a Center for Research and Expertise in Sport Perfromance
